Dear Stakeholders

The world is going through harrowing times due to the catastrophe caused on account of the contagious Coronavirus (COVID-19). In view of the prevailing outbreak due to the spread of this pandemic, we are sharing with you the developments about our institute’s actions in order to tackle the situation keeping in mind the safety and good health of staff and students.

Students were advised to vacate the hostels and proceed to their respective hometown on 14th March 2020 with immediate effect by informing the concerned authority. However, for the students who have been unable to leave the hostel, adequate arrangements have been made for their safety and comfort. Campus residents have been advised not to go out to different locations without permission and those students who have resided out of this campus are not permitted to visit the Institute till next order of the Authorities.

Classroom instructions and module ending examinations for all the academic programmes are suspended until further notice. The situation is being reviewed continuously and appropriate decisions of classroom instructions/ examinations will be intimated through email to all concerned.

Staff members working for essential services shall continue to attend to their duties as it is being done currently. Staff members not staying on the campus have been given the option of working from home in order to ensure the smooth running of the sections and departments as much as possible. Adequate arrangements have also been made for quarantine if such need were to arise and the dispensary is fully equipped for such contingency.

The entire Institute has been placed under lockdown with only essential services running such as dispensary, mess. We are closely monitoring the situation, and further steps will be taken depending upon the situation. We are sparing no efforts in preventing a community outbreak of this epidemic by following precautionary measures.

We are, however, going ahead with our admission process which will go completely online so that we ensure that the coming academic year commences without undue delay.

Meanwhile, we wish you good health and happy quarantined time with your family inside your home on behalf of NITIE fraternity.

Be well. Stay safe and healthy.

Best wishes,

Manoj.K.Tiwari
