

# Symposium on 'Emerging Issues and Trends in Ergonomics Research: the Way Forward'

Over the past 5 decades ergonomics has significantly contributed to the design improvement for systems with people, product and service systems and will continue to demonstrate its value more effectively to the stakeholders of ergonomics research in manufacturing, agriculture, healthcare, transportation including SME etc. The future for ergonomics will require development of wide-based skills that will include strong technical and research competencies. It is important to succeed on emerging issues of ergonomics in education, research, affiliation with professional groups, and continued application in industry. There is a growing need to understand the emerging issues and trends in ergonomics research as well as directions for future research in the area of ergonomics in India.

## Event

Half day symposium on “*Emerging issues and trends in Ergonomics Research: the way forward*” has been planned to be organized at NITIE. Delegates of the symposium would be faculty, research scholars and PG students from various universities, institutes, practitioners and participants from industry. This symposium aims at bringing the eminent experts in the field of ergonomics for providing directions to the participants to enrich their research thinking as well as setting future research plan in the area of ergonomics. The delegates will be able to understand the emerging issues and trends in ergonomics research and the future directions for research in the field of ergonomics and human factors.

## About NITIE

The National Institute of Industrial Engineering (NITIE) is an Autonomous Institute of higher learning under the Ministry of Human Resource Development (MHRD), Government of India, established in 1963.

NITIE is involved in Post Graduate teaching, research and industrial consultancy. NITIE offers two-year Post graduate Diploma programmes for the engineers i.e. Post graduate Diploma in Industrial Engineering (PGDIE), Post graduate Diploma in Industrial Management (PGDIM), Post graduate Diploma in Industrial Safety and Environmental Management (PGDISEM), Post graduate Diploma in Project Management (PGDPM) and Post graduate Diploma in Manufacturing Management (PGDMM). Also, NITIE offers one year PGPEX programme on Visionary Leaders for Manufacturing (VLFM) jointly with IIT Delhi for grooming the emerging leaders for Mid and Senior Level Managerial roles.

NITIE offers Fellowship program at Doctorate level recognized as equivalent to Ph.D. of an Indian University.

Along with management education and research, today NITIE is vigorously engaged in Industrial consultancy, sponsored projects and applied research.
