

**Industrial Safety and Environmental Management Program [ PGDISEM ] from the National Institute of Industrial Engineering Becomes a TSP Qualified Equivalent Program**

**Mumbai, India (Nov.11th 2019)** – The National Institute of Industrial Engineering’s Post Graduate Diploma in Industrial Safety and Environmental Management has been reviewed by the Board of Certified Safety Professionals (BCSP) and approved as a Transitional Safety Practitioner (TSP) Qualified Equivalent Program (QEP), providing the program’s graduates the option to apply with BCSP for the TSP designation.

The TSP meets the credential eligibility requirement for the Certified Safety Professional® (CSP®), the “gold standard” in safety certification, allowing those who hold the designation to waive the Associate Safety Professional® (ASP®) certification examination and sit for the CSP upon meeting all other requirements. Holding the TSP demonstrates accomplishment and commitment to professional development.

“We welcome The National Institute of Industrial Engineering’s exceptional safety program and those holding its Post Graduate Diploma,” says the CEO of BCSP, Dr. Treasa Turnbeaugh, CSP, ASP, CET, CAE. “Those who complete a QEP program have demonstrated a set of knowledge and skills that deserve recognition, and BCSP is committed to further support their dedication to professional development.”

A QEP TSP is a program in safety, health, and environmental (SH&E) practice that meets BCSP standards for participation and demonstrates a substantial match to the ASP exam blueprint. Any person having completed a program from The National Institute of Industrial Engineering’s Post Graduate Diploma in Industrial Safety and Environmental Management may apply for the TSP designation within their program’s applicable dates as it appears on the QEP list.

More information on the National Institute of Industrial Engineering’s Post Graduate Diploma in Industrial Safety and Environmental Management can be found at [www.nitie.edu](http://www.nitie.edu) and [www.nitie.ac.in](http://www.nitie.ac.in) and details on the TSP are available at [bcsp.org/tsp](http://bcsp.org/tsp).
